Athletics 2009-10:

Congratulations to the Phys-Ed department and all of our coaches as there have been 440 students this year that participated in at least one sport. Data shows that student achievement increases with up to 4 activities - we are well placed in helping our students. When we add to this the participation from the Arts and Clubs, our SIP plan goal of 100% participation in one or more activities is not far off.
